

DIAGNOSTIC CENTRE FOR MEDICAL REHABILITATION LLC

REVIEWS

The practical usage of Aquatone-02 at Diagnostic center for medical rehabilitation LLC. During the period from 2012-10-03 to 2012-12-14

The Aquatone-02 device was used in treatment of 26 patients with various diseases of various pathological degrees, in musculoskeletal system, lungs and the urogenital system. The efficiency of the device without the use of medical preparations (by the patient) in order to study its effect.

Significant changes in the patients' emotional state:

- Improvement of the subjective condition, appetite and sleep;
- reduction of reactive anxiety, drowsiness.

Positive dynamics in the treatment during the specified period has been observed to varying degrees in 100% of patients with diagnoses:

- acute pyelonephritis, cystitis, prostatitis;
- pneumonia, bronchitis;
- osteochondrosis, lumbosacral;
- arthritis of various etiologies.

In the assessment of therapeutic effects in the use of the unit, was taken into account patients' subjective psycho-physiological condition as well as complex medical diagnosis under "Progroz-6 m". When requesting consent to use the Aquatone-02, patients were informed that evaluation also consisted of reviews from other medical institutions and professionals.
